Synergized formula

BOOST

Add ExciteR™ 55 Aerosol To Your Arsenal

ExciteR™ 55 Aerosol features synergized pyrethrins to kill fleas, foraging ants (except Pharaoh, fire and harvester), ticks, and other labeled pests. Apply as a contact or surface spray for both indoor and perimeter treatments. ExciteR™ 55 Aerosol is approved for use in and around residential and commercial buildings, food processing plants, and manufacturing facilities. The flip-up nozzle design offers convenience and ease for indoor broadcast surface spraying and crack and crevice applications for hard-to-reach areas. Choose ExciteR™ 55 Aerosol for flexible usage and fast acting results.

ExciteR™ 55 Aerosol

TREATMENT OPTIONS

- Contact and surface spray
- Indoor and premise treatment

ACTIVE INGREDIENTS

- Pyrethrins 0.5%
- Piperonyl Butoxide 5.0%

ABOUT THE ACTIVE INGREDIENTS

ExciteR™ 55 Aerosol combines a proven active ingredient that delivers broad spectrum control with a synergist to boost its activity. Pyrethrins are a collection of six active ingredients. Due to this combination, the ingredient has remained effective against many insect pests. Piperonyl butoxide (PBO) works by inhibiting the ability of the insect to metabolize or breakdown pyrethrins reducing the amount needed to kill many insect pests.

FEATURES

- Integrated flip-up crack and crevice straw
- Broad spectrum control
- Low odor

BENEFITS

- Approved for use in sensitive areas
- Synergized formulation
- Indoor and outdoor use
