EPA Est. No. 39578-TX-1

Starbar® QuikStrike® II Fly Abatement Strip (QuikStrike® II)'s active ingredient is contained in a sugar-based matrix that flies find irresistible. Shortly after feeding on the matrix, the flies will begin to die. QuikStrike® II's triple action fly attractant attracts flies to the product area. Ventilation will not diminish the effectiveness of the QuikStrike® II strip since it works by fly feeding action.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with the labeling.

USE RESTRICTIONS:

Do not apply in areas accessible by animals, children and pets.

Do not place where rain or daily activity will get stations wet.

DO NOT remove the attractant tube or empty its contents.

Note: The attractant has a strong odor.

WHERE TO APPLY

Use QuikStrike® II around: garbage chutes, dumpsters, loading docks, waste containers, grease pits, rest areas, outdoor rest room facilities, in and around stables, dairy barns, milking parlors, loafing sheds, kennels, poultry houses, aviaries, swine houses, feedlots, refuse and recycling facilities, around commercial food-handling facilities, restaurants, bars, groceries, stores, and other facilities where house flies and lesser house flies are a nuisance.

For optimum results, place the station within four feet of the ground where flies generally forage for food. Bait stations placed in rafters or areas higher than 4 feet will not be as effective. For longest residual activity, protect station from direct sunlight and excessive moisture.

HOW TO APPLY

Remove the QuikStrike® II strip from the protective pouch. Handle by grasping curved ends of station. To activate attractant, simply squeeze/snap the attractant tube until a snapping sound is heard.

Apply the station one of two ways:

1. Affix on a stationary object low to the ground. (Do not hang from one end in breezy area as flies will not land on moving objects.) The station may be placed at any angle but is most effective when placed on a flat surface.
2. To contain killed flies, QuikStrike® II may be leaned upright in a bucket or box partially filled with sand, a brick or other weight to keep it from being blown over.

USE RATE

In enclosed structures or sites with low to moderate house fly populations, use 1 station per 300 ft². In open structures or sites with high house fly populations, use 1 station per 100-150 ft².

Replace when effectiveness diminishes. Note: When the yellow coloring of the strip is gone, the station will not be effective.

STORAGE AND DISPOSAL: Do not contaminate water, food, or feed by storage or disposal. **PESTICIDE STORAGE:** Store in a cool, dry place away from children and animals. Keep strips in original unopened package until ready to use. Do not store unused strips in anything but original package. **PESTICIDE DISPOSAL:** To avoid wastes, use all material in this container by application according to label directions. If wastes cannot be avoided, offer remaining product to a waste disposal facility or pesticide disposal program (often such programs are run by state or local governments or by industry.) **CONTAINER HANDLING:** Nonrefillable container. Do not reuse or refill this container. Do not reuse strips. Offer for recycling if available or dispose of empty pouch and box in a sanitary landfill or by incineration or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

WARRANTY AND CONDITIONS OF SALE: To the extent consistent with applicable law, Central Garden & Pet warrants this product in its unopened package conforms to the chemical description on the label and is reasonably fit for the purposes set forth on the label when used according to directions under normal use conditions as specified on this label. To the extent consistent with applicable law, there are no other warranties, expressed or implied, concerning the use of this product other than as indicated on the label. This warranty does not extend to the handling or use of this product contrary to label instructions or under abnormal conditions or conditions not reasonably foreseeable to seller, and buyer assumes all risk of any such use.
