• Cyantraniliprole
Group 28
Insecticide

rotational partners

**GOLDEN
MALRIN**
QUIKSTRIKE

use rate

3.2 ounces
per 1,000
square feet

Small Granule. Big Impact.

INTRODUCING STARBAR® CYANAROX™ INSECTICIDAL BAIT

At Zoëcon, our team of pest control experts prides itself on helping you find products that deliver results. Starbar® Cyanarox™ Insecticidal Bait is a ready-to-use granular bait that combats house flies in and around residential, commercial, institutional, and agricultural structures. Starbar® Cyanarox™ Insecticidal Bait can be used indoors in a bait station and outdoors in common areas where high fly densities are most apparent.

Visit Zoecon.com to learn how to achieve house fly control with Starbar® Cyanarox™ Insecticidal Bait.

Starbar[®] Cyanarox[™] Insecticidal Bait

TREATMENT OPTIONS

- Read-to-use granular fly bait to control house flies

ACTIVE INGREDIENT

- Cyantraniliprole 0.5%

ABOUT THE ACTIVE INGREDIENT

Starbar[®] Cyanarox[™] Insecticidal Spray features the active ingredient cyantraniliprole which kills insects through a mode of action that modulates an insect's ryanodine receptor. This disruption of muscle contraction leads to paralysis and death for the insect.

FEATURES

- Low bulk density
- Single pellet controls up to 95 house flies
- Indoor and outdoor use sites

BENEFITS

- Easy application
- Perfect rotational partner
- No odor
- No dusting during application

AVAILABLE SIZES

- 4 lb. plastic container
- 28 lb. plastic container

APPLICATION RATES

Fly Bait	Pounds per pail	Low use rate oz./1,000 sq. ft.	1,000 sq. ft. applications/pail
QuickBayt [®] Fly Bait	35	5.7	98
Cyanarox [™] Insecticidal Bait	28	3.2	140

One pail of Cyanarox[™] Insecticidal Bait can provide up to 42 more applications than the competitor. Based on product labels as of March 12, 2018.

Refer to the Starbar[®] Cyanarox[™] Insecticidal Spray product label for complete application instructions. Follow all label directions.

ROTATION

One of the problems in controlling flies is fighting resistance. Over time, flies may develop a tolerance to a certain bait. When baits are rotated properly, using different active ingredients and modes of action, flies are less likely to develop resistance.

Starbar[®] Cyanarox[™] Insecticidal Bait can be used in rotation with QuikStrike[®] Fly Bait and Golden Malrin[®] Fly Bait to form a formidable, three-pronged rotational approach.

VITALS

- Percent active ingredient: 0.5
- Recommended use rate
 - 3.2 oz. per 1,000 sq.ft
- Group 28 Insecticide
- EPA Reg. No. 100-1541-89459

APPLICATION SITES

INDOOR AREAS WHEN PLACED IN A BAIT STATION (NON-FOOD AND NON-FEED AREAS):

- Homes
- Restaurants
- Warehouses
- Hospitals
- Nursing Homes
- Hotels
- Schools
- Daycares
- Pet Shops
- Zoos
- Modes of Transport

OUTDOOR AREAS:

- Kennels
- Schools
- Recycling Plants
- Military Installations

USE AROUND OUTDOOR WASTE-STORAGE AREAS OF:

- Restaurants
- Taverns
- Hotels
- Grocery Stores
- Bakeries
- Warehouses
- Sports Complexes
