Safety Data Sheet

Section 1: Identification

Product identifier

Product Name  •  Gentrol Point Source Roach Control Device
Synonyms  •  37890A; EPA Reg. No.: 2724-469; Zoecon (s)-Hydroprene Roach Control Station II
Product Description  •  Straw-colored liquid in a clear ampoule.

Relevant identified uses of the substance or mixture and uses advised against

Recommended use  •  Insecticide.
Restrictions on use  •  KEEP OUT OF THE REACH OF CHILDREN. Avoid contact with eyes, skin and clothing. Do not use or store near heat or open flame.

Details of the supplier of the safety data sheet

Manufacturer  •  Wellmark International
1501 E. Woodfield Road, Suite 200W
Schaumburg, IL 60173
United States

Emergency telephone number

Manufacturer  •  1-800-248-7763
Manufacturer (Transportation)  •  1-800-424-9300 - CHEMTREC
Manufacturer (Transportation)  •  1-703-527-3887 - CHEMTREC - Outside North America - Collect Calls Accepted

Section 2: Hazard Identification

United States (US)
According to: OSHA 29 CFR 1910.1200 HCS

Classification of the substance or mixture

OSHA HCS 2012  •  Flammable Liquids 4
Eye Mild Irritation 2B
Skin Sensitization 1B

Label elements

OSHA HCS 2012

WARNING

Hazard statements  •  May cause an allergic skin reaction
Combustible liquid
Causes eye irritation

Precautionary statements

Prevention • Wash thoroughly after handling.
Avoid breathing dust, fume, gas, mist, vapors and/or spray.
Keep away from heat, sparks, open flames and/or hot surfaces. - No smoking.
Contaminated work clothing should not be allowed out of the workplace.
Wear protective gloves/protective clothing/eye protection/face protection.

Response • IF ON SKIN: Wash with plenty of soap and water.
If skin irritation occurs: Get medical advice/attention.
Take off contaminated clothing and wash before reuse.
In case of fire: Use appropriate media for extinction.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
If eye irritation persists: Get medical advice/attention.

Storage/Disposal • Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.
Store in a well-ventilated place. Keep cool.

Other hazards

Section 3 - Composition/Information on Ingredients

Substances

• Material does not meet the criteria of a substance.

Mixtures

Section 4: First-Aid Measures

Description of first aid measures

Inhalation • IF INHALED: If breathing is difficult, remove person to fresh air and keep at rest in a position comfortable for breathing. Call a poison control center or doctor for further treatment advice.

Skin • IF ON SKIN: Wash with plenty of soap and water. If skin irritation occurs: Get medical advice/attention.

Eye • IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.
Ingestion

IF SWALLOWED: Do not induce vomiting unless told to by a poison control center or doctor. Get medical attention if symptoms occur.

Most important symptoms and effects, both acute and delayed

- Causes eye irritation. May cause an allergic skin reaction. Refer to Section 11 - Toxicological Information.

Notes to Physician

- Treat symptomatically and supportively.

Section 5: Fire-Fighting Measures

Extinguishing media

Suitable Extinguishing Media

- LARGE FIRE: Water spray, fog or regular foam.
- SMALL FIRES: Dry chemical, CO2, water spray or regular foam.

Unsuitable Extinguishing Media

- Avoid heavy hose streams.

Firefighting Procedures

- LARGE FIRES: Move containers from fire area if you can do it without risk. Stay upwind. Ventilate closed spaces before entering. Do not breathe gas/fumes/vapor/spray.

Special hazards arising from the substance or mixture

Unusual Fire and Explosion Hazards

- Combustible liquid.

Hazardous Combustion Products

- No data available.

Advice for firefighters

- Wear positive pressure self-contained breathing apparatus (SCBA).

Section 6 - Accidental Release Measures

Personal precautions, protective equipment and emergency procedures

Personal Precautions

- Do not walk through spilled material. Ventilate enclosed areas. Wear appropriate personal protective equipment, avoid direct contact.

Emergency Procedures

- ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area). Ventilate closed spaces before entering.

Environmental precautions

- LARGE SPILLS: Prevent entry into waterways, sewers, basements or confined areas.

Methods and material for containment and cleaning up

Containment/Clean-up Measures

- Absorb spills with an inert material, clay granules or other inert absorbent material and put in container for disposal.
Section 7 - Handling and Storage

Precautions for safe handling

Handling
- Keep away from fire - No Smoking. Avoid breathing fumes. Use only in well ventilated areas. Wear appropriate personal protective equipment, avoid direct contact.

Conditions for safe storage, including any incompatibilities

Storage
- Store in a cool/low-temperature, well-ventilated dry place away from heat and ignition sources.

Incompatible Materials or Ignition Sources
- Heat, sparks, open flame.

Other Information
- See product label for additional information.

Section 8 - Exposure Controls/Personal Protection

Control parameters

Exposure Limits/Guidelines
- No data available.

<table>

</tr>
</tbody>
</table>

Exposure Limits Supplemental
ACGIH
- Butylated hydroxytoluene (128-37-0): TLV Basis - Critical Effects: (upper respiratory tract irritation)

Exposure controls

Engineering Measures/Controls
- Use adequate ventilation to remove vapors (fumes, dust, etc.)

Personal Protective Equipment
- Pictograms

  - Respiratory
    - In case of insufficient ventilation, wear suitable NIOSH approved respiratory protection.

  - Eye/Face
    - Wear chemical splash safety goggles.
  
  - Hands
    - Wear appropriate gloves.

  - Skin/Body
    - If prolonged exposure is anticipated, it is recommended for handlers to wear appropriate clothing to prevent skin contact.

Environmental Exposure Controls
- Refer to Section 13 - Disposal Considerations.

Section 9 - Physical and Chemical Properties

Section 10: Stability and Reactivity

Reactivity

- Non-reactive

Chemical stability

- Stable

Possibility of hazardous reactions

- Hazardous polymerization will not occur.

Conditions to avoid

- Heat, sparks, open flame, other ignition sources, and oxidizing conditions.

Incompatible materials

- Store away from oxidizers.

Hazardous decomposition products

- No data available.

Potential Health Effects

**Inhalation**
- **Acute (Immediate)**
  - Under normal conditions of use, no health effects are expected.
- **Chronic (Delayed)**
  - No data available

**Skin**
- **Acute (Immediate)**
  - May cause an allergic skin reaction.
- **Chronic (Delayed)**
  - No data available

**Eye**
- **Acute (Immediate)**
  - Causes eye irritation.
- **Chronic (Delayed)**
  - No data available

**Ingestion**
- **Acute (Immediate)**
  - Under normal conditions of use, no health effects are expected.
- **Chronic (Delayed)**
  - CHRONIC TOXICITY/CARCINOGENICITY (S)-Hydroprene: A chronic toxicity/carcinogenicity study in rats identified ovaries and the thyroid as target organs. An increased incidence of benign thyroid tumors was present in male rats only at the highest dose tested. Increased weights and macroscopic and microscopic changes in the ovaries were observed at the highest doses. NOEL for males was 1,000 ppm and for females 100 ppm. SUBCHRONIC TOXICITY (S)-Hydroprene: In a 90-day subchronic feeding study in rats, the NOEL was 50 mg/kg/day. Changes in body weight and organ weights were observed at higher dose levels. Liver and ovaries were identified as target organs. No immunotoxic effects were observed in a study in mice when (S)-Hydroprene was fed (diet) at dose levels up to and including 1,200 mg/kg/day, continuously for 30 days.

**Mutagenic Effects**
- MUTAGENICITY: (S)-Hydroprene has been found negative for mutagenicity potential. It has tested negative in: 1) Ames Test, 2) in vivo cytogenetic assay, 3) micronucleus test (in vivo) and in 4) test for DNA effects- UDS in rats (in vitro).

**Carcinogenic Effects**
- (S)-Hyrdoprene: A chronic toxicity/carcinogenicity study in rats identified ovaries and the thyroid as target organs. An increased incidence of benign thyroid tumors was present in male rats only at the highest dose tested. Increased weights and
macroscopic and microscopic changes in the ovaries were observed at the highest
doses. NOEL for males was 1,000 ppm and for females 100 ppm.

**Reproductive Effects**

- DEVELOPMENTAL AND REPRODUCTIVE TOXICITY(S)-Hydroprene: Parental
  reproductive performance in rats remained unaffected up to a dose level of 7,500 ppm,
  when evaluated in a 2- generation reproduction/toxicity study. Histologically, all
  females of 7,500 ppm dose group had cytoplasmic vacuolation in the ovaries, but
  without affecting reproductive performance. The NOEL for pup development was 1,500
  ppm.No teratogenic or fetotoxic effects were observed in rats when pregnant animals
  were exposed (gavage) to (S) Hydroprene at levels up to 1,000 mg/kg/day (highest
dose tested). NOEL for maternal toxicity was 1,000 mg/kg/day.

Section 15 - Regulatory Information

Safety, health and environmental regulations/legislation specific for the substance or mixture

SARA Hazard Classifications
- Acute

FIFRA – Pesticide Labeling

This chemical is a pesticide product registered by the United States Environmental Protection Agency and is subject to certain labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets (SDS), and for workplace labels of non-pesticide chemicals. The hazard information required on the pesticide label is reproduced below. The pesticide label also includes other important information, including directions for use.

**CAUTION**

Precautionary Statements
- KEEP OUT OF THE REACH OF CHILDREN.

Hazards to Humans and Domestic Animals

HAZARDS TO HUMANS AND DOMESTIC ANIMALS -CAUTION: Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

First Aid
- IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
