Zoecon 9010 GR

Alternate brand names: Pre-Strike™
ZOËCON® Altosid® PRO-G Insect Growth Regulator

AN INSECT GROWTH REGULATOR [EXTENDED RESIDUAL GRANULAR PRODUCT] TO PREVENT ADULT MOSQUITO EMERGENCE (including those mosquitoes which may transmit West Nile Virus)/MIDGE EMERGENCE
Larvicide product to prevent adult mosquito emergence (including Aedes sp. and those which may transmit West Nile Virus, Zika, dengue, chikungunya and other mosquito-borne diseases)
Mosquito Larvicide
Prevents mosquitoes from becoming breeding, biting adults
21 [30] day Protection
Easy to Apply Granules
Treats over 13,000 sq. ft. (1.5 lb container)
# [teaspoon/tablespoon/cup] treats # gallons of water (per application rate table)
(30 day protection)
2.5 lb container - [Treats up to 5,455 square feet or 20,183 gallons of water]

ACTIVE INGREDIENT: (S)-Methoprene (CAS #65733-16-6).................................................. 1.5%
OTHER INGREDIENTS: ......................................................................................................... 98.5%
Total 100.0%

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS - CAUTION: Causes moderate eye irritation. Harmful if absorbed through skin. Avoid contact with eyes or skin. Due to the size and abrasiveness of the granule, use protective eyewear and clothing to minimize exposure during loading and handling. Wash thoroughly with soap and water after handling.

FIRST AID

| If in eyes | ▪ Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. |
| If on skin or clothing | ▪ Take off contaminated clothing. ▪ Rinse skin immediately with plenty of water for 15-20 minutes. |

Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-XXX-XXXX for emergency medical treatment information.

ENVIRONMENTAL HAZARDS

Do not contaminate water when disposing of rinsate or equipment washwaters.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

GENERAL DIRECTIONS: Zoecon 9010 GR [product name] releases effective levels of ALTOSID® insect growth regulator for up to 21 [30] days after application. Applications should be continued throughout the entire season to maintain adequate control. Treated larvae continue to develop normally to the pupal stage where they die.

[Rotary and fixed-wing aircraft equipped with granular spreaders capable of applying rates listed below may be used to apply Zoecon 9010 GR. Ground equipment which will achieve even coverage at these rates may also be used.]

Apply Zoecon 9010 GR [product name] uniformly and repeat application as necessary.

[Optional directions for 1.5/2.5 lb shaker container: Measure and then sprinkle the appropriate amount of Zoecon 9010 GR [product name] evenly over the surface of the water to be treated in order to control mosquitoes before they become breeding, biting adults. Measure the surface area of the water and follow the table below for the appropriate amount of product to use. Emptying or discarding small containers that are holding water will ensure the best results. In instances where small containers cannot be emptied or discarded and for locations such as flower pots, old tires, urns, etc. use approximately 20 [80 (30 days)] granules for every gallon of water.]

Do not use food utensils such as tablespoons or measuring cups for food purposes after use with insecticides.

**NOTE:** **ALTOSID** insect growth regulator has no effect on mosquitoes/midges which have reached the pupal or adult stage prior to treatment.

**APPLICATION TIME:** Apply **Zoecon 9010 GR** [product name] at any stage of larval mosquito/midge development. Granules may be applied prior to flooding (i.e., "pre-hatch" or "pre-flood") in areas which flood intermittently. In such areas, one application of **Zoecon 9010 GR** [product name] can prevent adult mosquito/midge emergence from several subsequent floodings. The actual length of control depends on the duration and frequency of flooding events.

**APPLICATION RATES:** *Aedes, Anopheles, and Psorophora spp.:* Apply **Zoecon 9010 GR** at 5 - 10 lb/acre (5.6 - 11.2 kg/ha). *Culex, Culiseta, Coquillettidia, Mansonia spp., and Chironomini (midges):* Apply **Zoecon 9010 GR** at 10 - 20 lb/acre (11.2 - 22.4 kg/ha). Within these ranges, use lower rates when water is shallow [<2 feet (60 cm)] and vegetation and/or pollution are minimal. Use higher rates for midges or when water is deep [≥2 feet (60 cm)] and vegetation and/or pollution are heavy.

**APPLICATION SITES:**

**Non-Crop Areas:** **Zoecon 9010 GR** may be applied as directed above to temporary and permanent sites which support mosquito/midge larval development. Examples of such sites include: snow pools, salt and tidal marshes, freshwater swamps and marshes (cattail, red cedar, white maple marshes), woodland pools and meadows, dredging spoil sites, drainage areas, ditches, wastewater treatment facilities, livestock runoff lagoons, retention ponds, harvested timber stacks, swales, storm water drainage areas, sewers, catch basins, tree holes, animal [horse] watering troughs, water-holding receptacles (e.g., tires, urns, flower pots, cans, and other containers), and other natural and manmade water-holding depressions.
Crop Areas: Zoecon 9010 GR may be applied as directed above to temporary and permanent sites which support mosquito/midge larval development. Examples of such sites include: irrigated croplands, pastures, rangeland, vineyards, rice fields (domestic and wild), date palm, citrus, fruit, nut orchards, berry fields and bogs.

NOTE: Application of Zoecon 9010 GR to sites subject to water flow or exchange will diminish the product’s effectiveness and may require higher application rates and/or more frequent applications.

STORAGE AND DISPOSAL: Do not contaminate water, food or feed by storage or disposal. Pesticide Storage: Store closed containers of Zoecon 9010 GR in a cool dry place. Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Pesticide Container Disposal [Plastic Container]: Nonrefillable container. Do not reuse or refill this container. Triple rinse (or equivalent). Then offer for recycling, if available, or puncture and dispose of in a sanitary landfill, or by incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.] (Paper/Plastic Bags): Nonrefillable container. Do not reuse or refill this container. Completely empty bag into application equipment. Then offer for recycling if available or dispose of empty bag in a sanitary landfill or by incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

AN INSECT GROWTH REGULATOR [EXTENDED RESIDUAL GRANULAR PRODUCT] TO PREVENT ADULT MOSQUITO EMERGENCE (including those mosquitoes which may transmit West Nile virus) [and heartworm disease]

Larvicide product to prevent adult mosquito emergence (including Aedes sp. and those which may transmit West Nile Virus, Zika, dengue, chikungunya and other mosquito-borne diseases) Biochemical mosquito control

Prevents the development of adult mosquitoes

Kills developing mosquito larvae [pupae]
Prevents developing mosquitoes [mosquito larvae] from becoming breeding, biting adults
Kills mosquito[s] [larvae] in [stagnant] standing water [before they are able to bite] [where they breed]

Apply to standing [stagnant] water in your yard
Kills mosquitoes before they become breeding, biting adults
Prevents mosquitoes from developing into adults
Kills pupae before adult mosquitoes can emerge
Kills pupae so adult mosquitoes can’t emerge

Prevents emergence of breeding, biting adult mosquitoes

Effective [protects] for up to [21][30] days

Prevents future mosquito populations

Concentrated formula ([just] [20][80 (30 day claim)] granules treat [just] 1 gallon of water)
Kills mosquitoes before they hatch including those which may transmit West Nile virus [and heartworm disease]

[Use in][Treat] standing water [to prevent mosquitoes][where mosquitoes breed]

For use in all water-holding receptacles where mosquitoes may breed including containerized water gardens [and animal [horse] watering troughs]
Use in any containerized water where mosquitoes may breed

[21][30] day protection

Easy to apply [use] granules Convenient shaker top can
[Just] Place/Sprinkle in [standing water, containerized water gardens, ornamental fountains, animal [horse] water troughs, birdbaths, old tires, flower pots, tree holes, pool covers, urns, rain barrels, roof gutters, abandoned swimming pools ] where mosquitoes breed

# [teaspoon/tablespoon/cup] treats # gallons of water (per application rate table)

[Square feet 21 day claims]
[1 lb treats up to 8,712 sq ft]
[12 oz container – Treats up to 1,635 sq ft]

[Square feet 30 day claims]
3 individual pouches [Treats up to 300 sq ft][Each pouch treats 100 sq ft or 400 gallons of water]
[14 oz – Treats up to 1,908 sq ft]

[Concentrated formula] (1 lb. treats up to 2,182 sq ft or 8,073 gallons of water)

HAZARDS TO HUMANS AND DOMESTIC ANIMALS - CAUTION: Causes moderate eye irritation. Harmful if absorbed through skin. Avoid contact with eyes or skin. Due to the size and abrasiveness of the granule, use protective eyewear and clothing to minimize exposure during application. Wash thoroughly with soap and water after handling.

FIRST AID
If in eyes
- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
  Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

If on skin or clothing
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.

Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-XXX-XXXX for emergency medical treatment information.

ENVIRONMENTAL HAZARDS
Do not apply to waters that drain into public waterways.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

GENERAL DIRECTIONS: Zoecon 9010 GR [product name] contains (S)-Methoprene insect growth regulator which controls mosquitoes before they can become adults for up to 21 [30] days after application.

Measure and then sprinkle the appropriate amount of Zoecon 9010 GR [product name] evenly over the surface of the water to be treated in order to control mosquitoes before they become breeding, biting adults. Measure the surface area of the water and follow the table below for the appropriate amount of product to use. Emptying or discarding small containers that are holding water will ensure the best results. In instances where small containers cannot be emptied or discarded and for locations such as flower pots, old tires, urns, etc. use approximately [20][80 (30 days)] granules for every gallon of water.

Begin treating when adult mosquitoes are first noted in the spring and continue applications throughout the mosquito season, which is typically up to the first frost. After treatment, you may notice that there will still be live larvae in the water. Treated larvae will continue to develop normally to the pupal stage where they die.

NOTE: S-Methoprene insect growth regulator has no effect on mosquitoes which have already reached the pupal or adult stage prior to treatment.

Mosquitoes are not only a nuisance; they can transmit diseases that are a serious health threat to people and pets. With just one bite, mosquitoes can transmit West Nile Virus and other viruses that cause encephalitis. They can also transmit heartworm disease to dogs and cats.

[Product name] kills developing mosquitoes before they become breeding, biting adults. It is easy to use; simply measure, then sprinkle the granules in areas of stagnant/standing/water where mosquitoes may breed (nothing to mix or spray). [Product name] granules offer long-lasting mosquito control for up to 21/30 days. When used as directed, [Product name] will not adversely affect humans, animals, fish, or vegetation.
