### TERMITE CONTROL WITH THE BOTTOM LINE IN MIND

Adonis™ 75 Termite/Insect WSP Concentrate features the convenience of water soluble packaging that pest management professionals have relied on to provide termite control at affordable application rates. The active ingredient imidacloprid disrupts the insects' nervous systems resulting in death. Long-lasting Adonis™ 75 Termite/Insect WSP Concentrate is formulated so that interior treatments are only required where there is an active termite presence – reducing labor costs for pest management professionals.

## ABOUT THE ACTIVE INGREDIENT

Adonis™ 75 Termite/Insect WSP Concentrate features the active ingredient imidacloprid, a systemic insecticide whose mode of action is as a neonicotinoid, an insect neurotoxin that blocks the pest's nervous system, resulting in death. This neurotoxin binds to the receptors of insect neurons more strongly than it does to those of mammals, resulting in a low toxicity profile to mammals and humans.
