

# INTRODUCING

broad-spectrum control

crack & crevice and broadcast spray

active ingredients

- Etofenprox
- PBO
- Pyrethrins
- Tetramethrin
- (S)-Methoprene

indoor and outdoor use

## A Network of Broad-Spectrum Control

### EXTEND YOUR REACH WITH ZOËCON

Zenprox® Xtend spray is the newest **broad-spectrum**, indoor and outdoor aerosol from Zoëcon. Combining insecticidal active ingredients, including etofenprox, with an insect growth regulator, Zenprox® Xtend aerosol **quickly kills** more than 25 labeled adult insects. With features like **flexible delivery** options, including a crack-and-crevice actuator and System III compatibility, Zenprox® Xtend aerosol provides pest management professionals with a powerful **all-in-one solution** to extend the reach of their pest control protocols.

Learn more about Zenprox® Xtend aerosol and see how you can extend your insect control protocol at [Zoecon.com](http://Zoecon.com)

# Zenprox<sup>®</sup> Xtend Aerosol

## TREATMENT OPTIONS

- Broadcast spray
- Crack-and-crevice
- Surface spray
- Void treatments

## ACTIVE INGREDIENTS

- Etofenprox 1.00%
- Piperonyl Butoxide 1.50%
- Pyrethrins 0.15%
- Tetramethrin 0.25%
- (S)-Methoprene 0.09%

## ABOUT THE ACTIVE INGREDIENT

Zenprox<sup>®</sup> Xtend Aerosol features etofenprox, a broad-spectrum insecticide that disturbs insect nervous systems following direct contact or ingestion. It is used in agriculture, horticulture, viticulture, forestry, animal health and public health to control flying and crawling insect pests.

## FEATURES

- Crack-and-crevice and broadcast spray options
- Wide range of pests controlled
- Approved for indoor and outdoor treatments
- System III compatible

## BENEFITS

- Formulated with an insect growth regulator (IGR) and insecticidal active ingredients
- Residual control prevents callbacks and reduces labor costs
- Non-staining
- Formulated with flexibility in mind, Zenprox<sup>®</sup> Xtend can be used indoors and out

## AVAILABLE SIZES

- 21 oz. can
- 12 cans per case
- EPA Reg. #89459-12
