

ZENPROX® EC: STRONG ALONE OR AS A TANK-MIX PARTNER

Zenprox® EC concentrate provides results and residual control, knocking down a wide spectrum of pests when used alone. This concentrate is also a great tank-mix partner when matched with Gentrol® IGR or Precor® IGR for insurance against re-infestations.

FEATURES

- Kills over 20 insects: ants, bed bugs, cockroaches, fleas, spiders, scorpions and other listed pests
- Non-repellent formulation
- 2 fl. oz. in one gal. of water treats 1,000 sq. ft.
- Active ingredients: Etofenprox 16.2%, Piperonyl Butoxide 64.8%
- Available in a 1 pt. bottle, 6 bottles per case and a 2 fl. oz. single-dose bottle, 24 bottles per case
- EPA Reg. #2724-804

APPLICATION TIPS

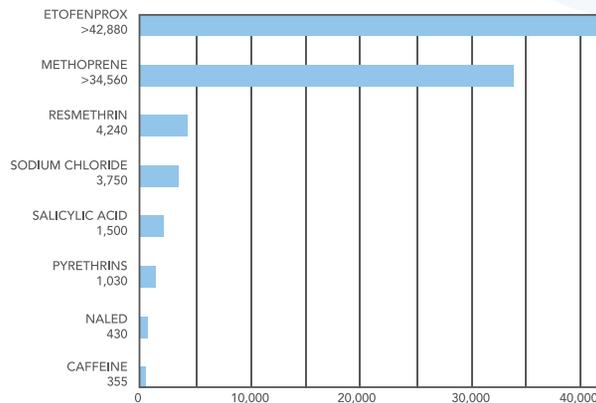

Zenprox® EC can be applied as an indoor broadcast treatment, spot treatment, or crack-and-crevice treatment. Apply uniformly over surfaces for broadcast, and at areas pests congregate for spot or void treatment. The concentrate mixes easily with water and can be applied with most application equipment. It provides up to 28 days residual control of fleas and up to 14 days residual on other listed pest species.

ZENPROX® PRODUCT FORMULATION

The versatile lineup of Zenprox® products are formulated with the core active ingredient etofenprox. The molecule contains only carbon, hydrogen and oxygen, and is classified as an ether pyrethroid, which disturbs the nervous system of pests.

COMPARATIVE ACUTE ORAL TOXICITIES

(A measure of LD₅₀. Longer the bar = lower the toxicity)

APPLICATION SITES

Use Zenprox® products in non-food handling areas of the following sites:

- Apartments
- Hospitals
- Warehouses
- Schools
- Modes of Transportation
- Office Buildings
- Homes
- Hotels

ZENPROX® WASP-X®₂ SPRAY

Zenprox® Wasp-X®₂ Spray is a foaming aerosol spray that kills wasps, hornets, and yellow jackets. It works quickly, killing listed insects on contact with an immediate action that also provides residual control. It can be applied to insect nests outdoors and indoors with a powerful jet spray that reaches up to 20 feet.

FEATURES

- Kills harmful stinging insects on contact
- Active ingredients: Etofenprox 0.5%, Piperonyl Butoxide 1.0%, Tetramethrin 0.2%
- Available in a 13 oz. aerosol can, 12 cans per case
- High dielectric rating: 36,000
- EPA Reg. #2724-786-89459

APPLICATION TIPS

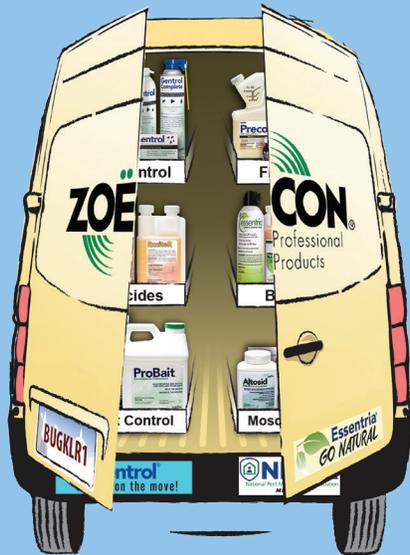

Zenprox® Wasp-X®₂ Spray can be applied to nests indoors and outdoors. To apply at the maximum rate, spray for about 2 seconds for space of 1 sq. ft. Indoor areas include attics, steeples, mechanical rooms, barns, sheds, non-food/feed warehouses, garages, and carports. Do not apply indoors in habitable portions of residential dwellings.

WHAT'S IN YOUR VAN?

Behind the doors of our interactive PMP van are enduring and effective insect control solutions that reduce and eliminate callbacks. From learning opportunities to saving programs, this interactive experience has everything you need to make your day-to-day a smooth and stress-free ride.
